ANTIOCH BOARD BALKS AT NEW STREET PLANS

Request Engineer to Revise Blue Prints for Harden Street

Mayor George B. Bartlett and the Antioch trustees turned thumbs down on one of the plans for street improvement submitted by Engineer E. W. Parlasca at the special meeting of the board Friday night.

The project in question was the Harden street improvement which is to be widened to 20 feet before receiving the top dressing. According to the engineer's plans, the gravel dressing placed on the street less than two years ago and which is in excellent condition, was to be removed and the entire job started all over again, at a cost, which in the opinion of board members, is not justified. The plan was rejected, and the engineer stated he would revise the blue print.

\$300 for Snow Removal

Also present at the meeting was State Engineer Braneck, who stated he would recommend a budget of \$1,385 for the North avenue project and Orchard street and Hillside avenue. Included in this is \$300, the amount appropriated last year for removal of snow from streets which was not used. It was re-appropriated.

Under the rejected plan of Engineer Parlasca the Harden street improvement would have cost, including black-topping of Spafford street, \$2,640, which would have used about all the fund the village has coming from state gas tax refunds.

Braneck said he would rush new plans for the improvement.

PTA HAS RECORD MEMBERSHIP AT START OF YEAR

The Antioch Grade School Parent-Teacher association has 63 members, a record for this time of year, it was revealed at the meeting of the group at the grade school Monday night. The success attained in getting new members so early in the school year is attributed to the drive put on the last two weeks by the membership committee.

Business matters transacted at the meeting included the election of Mrs. Elmer Hunter, president of the PTA, as delegate to the recently formed community council, and the submitting of the budget for the year by the finance committee. Delegates also were elected to the county council of PTA groups and Mrs. Nellie Vos and Mrs. Delmar Brinkman were named with Mrs. James Dunn and Mrs. Virgil Felter as alternates.

Entertainment features included songs by the 7th grade boys and a Columbus day broadcast by the entire 7th grade. A membership skit was read by Mrs. Petty and Mrs. Childers. Mr. Clabaugh reviewed the address given recently by Howard Vincent O'Brien before the Wilmette PTA, on "What Kind of Persons Do I Want My Children to Be?"

The committee for the October card party to be held the 25th are Mrs. J. B. Fields, Mrs. W. C. Petty and Mrs. Irving Elms.

John Darby, 79, Dead In Boulder, Colorado

John Darby, 79, former Lake Villa farmer and a resident of Antioch for nearly 20 years, died last Wednesday in Boulder, Colorado, where he had made his home for the past 12 years. He had been in ill health for several years.

Born in England, he came with his parents to America when quite young. The family came to Lake Villa and resided on the farm which is now a part of the E. J. Lehmann estate just north of Cedar Lake. Thirty years ago Mr. Darby and his wife moved to Antioch, living on South Main street for nearly twenty years, before moving to Colorado.

He is survived by his wife, and a niece, Miss Ethel Adams of Antioch. He was a brother of the late Dr. Harry Darby, of Wilmet, Wis.

Stock Cross Lake With Fish

Thomas J. Lynch, acting director of the department of conservation, stocked Cross Lake with fish from the state hatchery last Thursday.

Antioch Business Man Takes Bride; Married In Indiana Monday

Miss Gertrude Lippert, daughter of Mr. and Mrs. John Lippert of Antioch, became the bride of Robert Mann, Antioch grocer, in a ceremony performed Monday at Morroco, Indiana.

The couple were accompanied by Mr. and Mrs. A. G. Simon, and the bridal party stopped first at Crown Point where they bought the license and then proceeded to Morroco where the ceremony was performed by the Rev. W. C. Carder at the Methodist church parsonage. Heading south after the wedding the party visited some of the picturesque locations in the Hoosier state before returning to Antioch yesterday.

The bride came with her parents from Canton, Ohio, to Antioch early this year when her father was employed as an expert potter by the Pickard company. Mr. Simon, who accompanied the bridal pair, is superintendent of the local plant.

The bridegroom is one of Antioch's best known young business men.

For the present the couple are residing at the home of the bride's parents on what was formerly the Crowley farm, now a part of the Paschendale estate.

ROBERT HUNTER, WAR VETERAN, DEAD AT 92

McHenry Co.'s Oldest GAR Member; Marched with General Sherman

Robert Hunter, 92, McHenry county's oldest civil war veteran, died Monday at his home in Richmond.

The aged veteran was a resident of Antioch community in his youth, and it was from here that he left school when 16 years of age and went to Chicago where he enlisted with the 12th Illinois infantry. He marched with Gen. Sherman from Atlanta to the sea, and later he was one of the men in the grand review of troops that marched down Pennsylvania avenue before President Lincoln.

Mr. Hunter was a member of the Masons, Knights Templar, Eastern Star and the Waukegan post of the G. A. R.

He was born in Ireland of Scotch parents in 1845, and came with the family to America when two years of age. On July 14, 1869, he was married to Harriet Hoskins and the couple lived on English Prairie for two years and then moved to Richmond. Mrs. Hunter died in 1895 and later he was married to Elizabeth McClellan who survives him. Also surviving him are a daughter, Mrs. Alda Jennings, of Richmond, and a brother, Henry Hunter of Antioch.

Funeral services were held yesterday afternoon in Richmond and interment was in the Richmond cemetery.

Religious Council Holds 67th Annual Convention Friday

The Lake County Council of Religious Education will hold its sixty-seventh annual convention at the Gurnee Community church next Tuesday, October 19, beginning at 9:30 a. m.

The convention theme is "The Church and Its Youth," and speakers of prominence in the religious and educational field will address the convention at all sessions.

Dinner will be served at 12 o'clock by the Aid Society of the Gurnee church.

During the afternoon two addresses will be heard and there will be election of officers for the ensuing year. A picture film, "Lost and Found," will be shown, and the evening session beginning at 8 o'clock will be given over to the young people's conference with Miss Ruth Minto, leader of the young people at the Millburn Congregational church, presiding.

WINS SCHOLASTIC HONOR AT DEKALB

Jean Hughes, a 1937 graduate of the Antioch Township High school, and now a freshman at the Northern Illinois State Teachers College at DeKalb, made such a high score in the English entrance exam that she is exempt from taking the required course in freshman English. Miss Hughes was one of 14 students of the entering class of 287 to be so honored. This information comes from Blanche Davidson, dean of women at the DeKalb school.

ANTIOCH GAME REFUGE IS NOW IN OPERATION; ATTRACTS WILD FOWL

Local School Project Receives National Publicity

Antioch's wild fowl refuge is now a reality, and not only is the local school project attracting migratory birds in great numbers, but it is also drawing publicity on a national scale.

The ten acres of school land directly east of the Antioch High School has been posted with signs warning hunters not to do any hunting. Several wild mallards have been stationed on the lagoon to act as a receiving committee to any new arrivals.

According to reports many wild ducks have stopped and enjoyed the hospitality provided them there. Corn and oats has been spread out around the shore of the lake, and feed placed along the pheasant and partridge runs.

At the Wednesday meeting of the Future Farmers of America, President Russell Doolittle appointed the following committees to take charge of the necessary work:

Finance Committee: Henry Quadenfeld, Robert White, and Robert Denman.

Posting Committee: Virgil Horton, Fred Zilke, and Robert Bemis.

Shelter Committee: Gene Carney, Glenn Fox and Robert Patrick.

Feeding Committee: Lyell Dibble, Lloyd Drom and Otto Gussarsen.

Students and teachers of the Antioch High school are being asked to take an active part by contributing pennies to buy feed for the wild fowl.

The committee wishes to thank the Antioch Milling Company and Mr. Ernest Brook for feed they donated. George Bartlett, Chas. Rothers and Conrad Shedeck furnished the ducks that are acting on the receiving committee at the lagoon.

Much publicity is being given the Future Farmers' Conservation Project by outside papers, state and national in scope.

HOLD LAST RITES FOR GUSTAVE SCHILLKE, 83

Former Resident Dies at the Home of His Daughter in Iowa

Funeral services for Gustave Schillke, 83, for over 30 years a resident of Antioch, were held at Strang's funeral home here Tuesday afternoon with Rev. S. E. Pollock officiating. Burial was in Hossmer cemetery near Bristol.

Mr. Schillke died Saturday at the home of his daughter, Mrs. Edward Ditsworth, in Algona, Iowa, where he had made his home since leaving Antioch a year ago.

He was born in Germany and came to America in 1885. For many years he resided in Bristol township, coming to Antioch in 1902. He was married to Mary Schonscheck March 23, 1886, and four children were born to the couple, one dying in infancy. He was preceded in death by his wife who died six years ago, and two daughters, Mrs. Mary Kelly of Chicago who passed away in February, 1926, and Mrs. Hattie Brogan who died two months later, in April, 1926.

One daughter survives, Mrs. Edward Ditsworth, of Algona, Iowa.

High School Forum Sponsors Reception For Teachers, Parents

Members of the Parent-Teachers Forum of the Antioch Township High school have completed plans for the reception to be held at the school tomorrow night for new members of the faculty and the parents of freshmen.

A musical program and other entertainment features will be given by high school students and there will be the usual refreshments.

Serving on the reception committee with Mrs. H. H. Perry, president of the Forum, are Mrs. B. R. Burke, Mrs. Bert Doolittle, Rev. Kistler of Salem, Rev. Pierstorff of Millburn, Mrs. Fred Hawkins, Mrs. Curtis Wells, Mrs. George White, Mrs. Eleanor Micheli, Dr. R. D. Williams, Mrs. H. B. Gaston, Mrs. A. Hawkins, and four members of the high school faculty—Mr. Bright, Mr. Reichers, Miss Roberts and Mrs. Richey.

Everybody is welcome.

Mr. and Mrs. H. H. Reichers entertained Mr. and Mrs. Clarence Crowley at dinner on Saturday evening.

DEMOCRATS TO HOLD STATE POW-WOW AT SPRINGFIELD OCT. 21

Harold Bergen and F. Harkness Co-chairmen of Lake County Delegation

Harold Bergen of Winthrop Harbor and Ferguson Harness of Lake Zurich have been named as co-chairmen of the arrangements committee for Lake County for the State-wide Democratic Rally to be held at the State Fair Grounds in Springfield, October 21. These men represent the Lake County Democratic Young People's group and the Democratic Veterans' Organization.

Arrangements are being made for this county to be represented at the rally by a large group, the chairman said this week.

Arrangements have been made to have the speaking program and the evening dance inside the coliseum at the State Fair Grounds.

Barbecued beef and pork will be served during the afternoon and evening in the cafeteria and customers will pay for just what they order.

The speaking program which will start at 2:00 p. m. will feature Louis A. Johnson, Assistant Secretary of War and Chairman of the National Democratic Veterans' Organization and Pitt Tyson Maner, President of the Young Democratic Clubs of America.

Double Cast Will Present Antioch Junior Class Play

A double cast including 32 students will present the junior class play at the Antioch Township High school on successive nights, October 28 and 29.

The play, "Who Wouldn't Be Crazy," is a farce comedy in three acts and the scene is laid in the courtyard of a sanitarium for mild mental cases.

The cast for each night follows:

Thursday Night: JACK, Roger Brogan, Windsor Dalgard, PLURIBUS, Cliff Shonscheck, James Mapletorpe, MARSHALL, Geo. Bartlett, Chas. Hostetter, McCAFFERTY, Bob Burke, Leo Keisler, HIGGINS, Bob White, Frederick Zilke, PENDIE, Carolyn Phillips, Mildred Horan, REGGIE, Bob Story, Miss Lavelle, Bob Patrick, Lorraine Laursen, Frances Beimer, LOIS, Veneita Phillipi, Janice Kapple, MARJORIE, Ruth Pierstorff, Doris Hall, JANET, Eleanor White, Bonnie Jensen, BEATRICE, Eileen Snyder, Clarice Minto, EDWARD, Jack Effinger, Charles Rothers, EVELYN, Carol Nielsen, Arlene Krahn, INMATE ONE, Harold Vandenberg, INMATE TWO, Betty Schlosser, Marie Hagdahl.

E. Morley Webb spent the week-end with friends in Evanston.

POWLES NAMED PRESIDENT OF FIRE DEPARTMENT

Clarence Shultis, Secy., and Geo. Garland, Treas., Re-elected

Laurel D. Powles, former village treasurer, was named president of the Antioch Fire association at the annual election of officers held Tuesday night. Clarence Shultis, many years secretary, and George Garland, likewise serving many years as treasurer, were re-elected. Powles succeeds Robert Wilton, who has twice served the association as president, in 1934 and 1937.

Watch Fire Drills

Fire drills held Friday at the local schools in connection with Antioch's observance of Fire Prevention week were checked at both schools by Herman Rosing and Richard Allner, inspectors.

At the high school the building was completely evacuated in 30 seconds after the alarm was sounded, according to the inspectors who clocked the time at all exits.

The fastest time, however, was recorded at the grade school when only 25 seconds was required for pupils on the second floor of the old building to come down the tubular fire escape. The first floor of this building was evacuated in 30 seconds, while 80 seconds was required to clear the new building including all the children of the lower grades.

Business Premises Clean

Inspectors Rosing and Allner, also instructed to inspect all public and business buildings, reported premises to be in cleaner condition and with fewer fire hazards than in former years. Only minor recommendations were made to property owners.

Regarding traffic conditions at the time of fires Chief James Stearns points out that statistics show that more firemen lose their lives in going to and from fires than at the scene of operations, and the blame for deaths and injuries may often be placed directly upon the actions of careless motorists.

"Chasing fire engines not only endangers the lives of firemen," asserts Chief Stearns, "but is a direct violation of the law. It also results in traffic snarls which delay fire-fighting equipment in transit."

The state vehicle code specifies that the driver of any vehicle shall yield the right of way to fire engines at all times and requires that the operator of the vehicle shall pull over to the side of the roadway as close to right-hand curbing as possible and clear of any intersection, and remain there until the fire engines have passed. Police cars and ambulances also are entitled to the same consideration.

The law also prohibits any vehicle from following any fire apparatus traveling in response to a fire alarm closer than 500 feet, or parking such vehicle within the block when the apparatus has stopped for the fire.

COSTS MOTORISTS \$460 A MILE TO USE ILLINOIS HIGHWAYS

"Thar's gold in them thar hills" is the colorful but illiterate expression attributed to the miners of '49, but federal, state and local governments in 1937 are finding gold on the 3,000,000 miles of highways in the United States.

During the past year an average of \$406 per mile was collected for every mile of highway, according to the Chicago Motor club. Motorists in 1936 paid a total of \$1,400,000,000 in taxes or one-seventh of the total revenue collected from all sources of governmental agencies.

Early American travelers who rode on horseback or by coach along the Atlantic seaboard used to protest loudly and frequently at what they considered to be excessive charges on the many toll roads, but if they were alive today they would find that revenue was a mere pittance compared with the enormous sums now collected from highway users by federal and state governments.

Antioch Teachers Visit Chicago School Friday

The Antioch Graded schools will be closed tomorrow while Prin. R. E. Clabaugh and teachers visit the Francis Parker school in Chicago. The Parker school is one of the outstanding elementary schools in the city.

Walter Selter is taking a week's vacation from his duties at the Antioch garage.

IAA URGES CHANGE IN RELIEF PLAN

President Smith Outlines Program for Greater Efficiency

A four-point program to promote greater efficiency and economy in handling unemployment relief in Illinois was outlined by Earl C. Smith, president of the Illinois Agricultural Association in a report this week to the Special Relief Committee selected by John Martin, chairman of the Illinois Emergency Relief Commission.

Mr. Smith, a member of the special committee, offered his suggestions stating that he "could not agree with many provisions of the committee report."

Referring to the "exceedingly large appropriations for relief" and the "breakdown of initiative and interest of many on relief in securing and maintaining private employment," Mr. Smith recommended:

1. Discontinuance of the Illinois Emergency Relief Commission and its functions not later than the early summer of 1938;
2. An accurate check of relief rolls under the supervision of an independent committee to ascertain the percentage of employables still on relief who have made a sincere effort to find work regardless of its nature;
3. Limit relief to unemployables and those who have made an honest effort to get private employment even though not highly desirable nor especially remunerative;
4. At the discontinuance of state-wide relief, place full responsibility for unemployment relief on the local governments in which those on relief rolls reside.

"The longer such changes in relief policies are delayed, the more difficult the problems of relief and re-employment will become," Mr. Smith asserted. "It is impossible for me to believe that with the substantial improvement which has taken place in business conditions as shown by reports disclosing the many thousands who have been added to private payrolls; and with many other thousands formerly on relief rolls who are now receiving old age assistance, that any need exists for supplementing funds now available for relief during the interim between now and the date determined upon for complete discontinuance of state-wide relief."

W. C. Henslee Is Conference Appointee to Antioch M. E. Church

W. C. Henslee is to serve the Antioch and Rosecrans churches during the coming year, according to the Rock River Methodist Episcopal Conference pastors listed in Monday's daily newspapers. Appointees were named at the final session of the conference Sunday night.

The Rev. Mr. Henslee had not arrived in Antioch at noon today.

Men's Civic Club To Meet Monday

The Men's Civic Club of Antioch will meet Monday night at the Methodist church, Secretary R. E. Clabaugh announced to members today. The dinner will be served at 7 o'clock, and all men of the community are invited to attend.

The speaker for the event has not been announced.

We've Come a Long Way

This October 12 marks another anniversary of Columbus Day—445 years from the day Christopher Columbus and his adventurous voyagers sighted the western world.

The United States, as part of that new world, has come a long way since that discovery. Today it stands as the wealthiest and most democratic nation of both the old and new world. It is a nation whose citizens have more of the material wealth that makes for better living and happiness than those of any other nation.

There are many important chapters in America's history of progressive development. Every phase of that history is important, but two are of particular import to every one of this nation's 130,000,000 citizens. One is the growth of our nation under the Constitution of the United States. The other is the development of America's progressive industrial system.

Without the Constitution as it was drafted by our forefathers, Americans today would not have the freedom of speech and action that they have found vital to their happiness; without American industry they would not have those things which make their lives more comfortable, healthier and happier.

Industry provides American workers with the money and material needs with which to live a fuller life; the Constitution protects those possessions. Without either, the liberty and possessions of which we have so rich a share could not be preserved for us and our children.

Agitators—Then and Now

The author of the following words can hardly be accused of having an axe to grind in the present situation, for he has been dead nearly 90 years. Yet his words ring peculiarly true today as we see irresponsible agitators fomenting riots, strikes and property seizure. That man wrote: "There are persons who constantly clamor. They complain of oppression, speculation and the pernicious influence of accumulated wealth. They cry out loudly against all banks and corporations and all means by which small capitalists become united in order to produce important and beneficial results."

"They carry on mad hostility against all established institutions. They would choke the fountain of industry and dry all streams. In a country of unbounded liberty, they clamor against oppression. In a country where property is more evenly divided than anywhere else, they rend the air shouting agrarian doctrines. In a country where wages of labor are high beyond parallel, they would teach the laborer he is but an oppressed slave. "What can such men want? What do they mean? They want nothing but to enjoy the fruits of other men's labor. They can mean nothing but disturbance and disorder, the diffusion of corrupt principles and the destruction of the moral sentiments and moral habits of society."

Yes, the man who wrote this has been dead nearly 90 years. He was the great Daniel Webster.

Results of Producer Co-operation

"Leaders and authorities in the milk trade throughout the United States are looking forward to good markets for fluid milk products this fall," says the Dairy-men's League News. "There is a definite tone of optimism throughout the industry which has not been in evidence for several years."

Progress made by the milk producers is largely the result of cooperation. Today in most of the country's large milk sheds established marketing co-ops represent the producer. The benefits of this application of sound business methods to agriculture are felt in the home of the consumer as well as on the farm.

New Deal Irony

Edward F. McGrady, chief labor "trouble shooter" for the Roosevelt administration, has announced his resignation. He is going to be director of labor relations for the Radio Corporation of America. The R. C.

A. is "big business." Indeed, it is such big business that more than once it has been spoken of in connection with monopolistic practices and the anti-trust laws.

But it is not unusual for New Dealers to move over into big business. There is Charley Michelson, principal Democratic publicity man who is now doing public relations work for the Crosley Radio Co. There is Rexford Guy Tugwell, now employed by a large molasses firm. There is Raymond Moley, now in the publishing business. There is Lewis Douglas, now profoundly concerned with the manufacture of dynamite. There is Hugh Johnson, who ceased from cracking down from a lofty perch in Washington in order to become a widely syndicated newspaper columnist.

All these are only a few of the more conspicuous examples. The New Deal, in fact, begins to look like a regular breeding ground for big business executives and specialists of one kind or another.

Classified

The men who do a town more harm than good may be classed as follows: First, those who oppose improvement. Second, those who run it down to strangers. Third, those who never advertise their business. Fourth, those who distrust public-spirited men. Fifth, those who show no hospitality to anyone. Sixth, those who hate to see others make money. Seventh, those who oppose every movement that doesn't originate with themselves. Eighth, those who put on long faces when a stranger speaks of locating in their town. Ninth, those who oppose every public enterprise, which does not appear of personal benefit to themselves.

Spirit of Joy

Sweet council was given the young Democrats at Indianapolis by Henry A. Wallace, scholarly Secretary of Agriculture. He adjured them to hold fast to "the spirit of joy as personified in Mr. Roosevelt." Once that pearl of great price is lost the Democratic Party, he warned, will again be out in the swirling snow, a forlorn and shuffling vagabond.

As a prophet, Mr. Wallace may be dead right. But when he advises the Democrats to make a permanent companion of the spirit of joy he simply doesn't know the party.

There is at this writing about as much joy in the Democratic command as there was on that fateful day at Mudville when mighty Casey struck out.

The Poor Must Pay

"One of the gravest indictments of the Congress which has just adjourned is its refusal even to think about our terrible tax mess," writes John T. Flynn in a syndicated article. "This responsibility belongs to no special party—both great parties ran away from the subject. A politician is more frightened by taxation than by any other form of menace." Further on in his article, Mr. Flynn points to the ridiculous fallacy of the "soak the rich" policy of taxation. This may be good bait for uninformed voters, but as an economic possibility, to quote Mr. Flynn again it "is the saddest of all illusions!"

During the last fiscal year, Federal, state and local taxes collected in the United States amounted to \$12,500,000,000. If every person who had an income of \$25,000 a year or more, had been taxed to the limit—100 per cent—collections would have reached less than \$4,000,000,000, one-third of the tax load. And if the government had confiscated 100 per cent of the incomes of all persons earning \$5,000 a year or more—a sum which is certainly a far cry from riches—collections would have reached about \$10,000,000,000, more than \$2,000,000,000 less than the amount necessary to pay our extortionate tax bill.

The taxpayer who provides the bulk of tax funds in this country, whether he knows it or not, is the average small-salaried worker—the man or woman earning \$20, \$30 or \$40 a week. Indirect taxes are the principal support of all units of government—taxes which are hidden in the cost of food, clothing, tobacco, amusements, gasoline, beauty preparations and everything we use. The Twentieth Century Fund has found that a \$1,000 wage earner in New York pays \$123 in taxes; a \$2,000 salary worker, \$238; a \$5,000 a year man, \$618; and a \$100,000 executive, about \$60,000.

We are not now paying anywhere near enough taxes to meet present government expenditures, let alone reducing our nearly \$40,000,000,000 Federal debt. Only the poor man can furnish the tax money—there aren't enough rich men, if you take all they have.

WILMOT

Rochester Aggies 18-Wilmot 7

Wilmot was defeated at the local field Friday afternoon by Rochester Aggies 18-7. Rochester started off with a touchdown early in the first quarter. Wilmot came back to tie the game and step out ahead by a touchdown and the extra point both by Harvey Beaster. At the half Wilmot led 7-6. The more efficient Rochester line began to tell on the Wilmot team and they again stepped into the lead by a second touchdown in the third quarter. They went on to increase the lead in the last quarter. The Wilmot team showed little in the way of class against the veteran Rochester team. The game was well played and a hard one for Wilmot to lose.

The football team will play Norris Farms at Norris Farms this Friday afternoon.

The Junior Class have placed the order for their class rings. Principal M. M. Schurr; Tom Duffy and Russell Ender attended the Schoolmasters Club at Walworth on Wednesday evening.

Mr. and Mrs. Harry McDougall were at DeKalb Friday.

Mrs. H. Sarbacher has returned from attending the Grand Chapter O. E. S. at Madison this week. Mrs. Harry McDougall was at Madison for one day's session.

A number of friends surprised Mrs. George Faulkner and Mrs. David Kimball on Thursday afternoon.

Erminie and Grace Carey entertained at five tables of contract Friday. Mr. and Mrs. Wallace Dobyns and son, Gene Dobyns of Waukegan were among the guests. A lunch was served.

Mr. and Mrs. M. M. Schurr and children were in Milwaukee for the week-end.

Dr. M. W. Alcorn has moved his office from Twin Lakes back to the

rooms over the Hegeman drug store and will be in Wilmot on Monday, Wednesday and Friday mornings.

Mrs. Ray Ferry, Zion, was a guest on Sunday of her parents, Mr. and Mrs. T. C. Loftus.

The Oak Knoll P. T. A. is sponsoring a dance at the school on Saturday night, October 16. Good music will be provided and refreshments served.

Mr. and Mrs. Ray Bufton and George Hyde were in Kenosha Sunday for the day with Mrs. Margaret Bufton and daughters.

Mr. and Mrs. Ray Stoxen entertained Sunday for Mr. and Mrs. J. H. Marks and son, Wallace and Mr. and Mrs. W. Nott and children of Elkhorn.

Mr. and Mrs. William Anderson and daughter, Woodstock, were guests Sunday of Mr. and Mrs. Ray Rudolph. Thursday the Rudolphs were at Woodstock.

Mr. and Mrs. L. Sherman Spert Sunday with Mr. and Mrs. Earl Taylor at Genoa City.

Rev. S. Jede is attending a Lutheran Conference at Kenosha on Tuesday and Wednesday. Rev. H. Diehl, Lake Geneva, Rev. Walter Diehl, Elkhorn and Rev. O. Heidtke, Morton Grove, are his guests during the Conference.

Largest Masonry Fort
Fort Jefferson, which gives its name to Fort Jefferson National Monument, Fla., is the largest all-masonry fortification in the western world.

Youngest Mountains Rugged
The youngest mountains are the rugged. As time passes erosion softens their outlines.

Climate What You Make It
Uncle Ab says, speaking of the weather, that climate is just what you make of it.

HICKORY

Miss Hazel Fields in company with a party of young people, attended the WLS Barn Dance show in Chicago, Saturday night.

Mr. and Mrs. Clarence Spiering returned home last week from a three weeks' motor trip to western coast and Mexico.

Henry Hunter received word on Monday of the death of his brother, Robert Hunter, at his home in Richmond early Monday morning.

Mr. and Mrs. Hugo Gussarson and daughter, Ruth, visited Mr. and Mrs. Otto Olsen, Sr., at Algonquin, Sunday.

Mrs. Jennie Pickles spent Friday at the D. B. Webb home in Millburn.

Mrs. Henry Hunter returned home from the Burlington hospital on Sunday.

Sunday callers at the E. W. King home were Mr. and Mrs. Gerhardt Lange and baby from Hebron, Mr. and Mrs. Ray Bishop, Mrs. Alva Scofield and Miss Grace Tillotson from Kenosha.

Several from here attended the Ladies' Aid at Millburn Thursday. George A. Thompson and son George, of Zion, called at the W. D. Thompson home Saturday afternoon.

Mr. and Mrs. E. W. King entertained Mr. and Mrs. Wm. Welch and son and daughter for dinner, Sunday.

Had Pacific Beacon in 1855
The first lighted beacon on the Pacific coast off the United States was erected off San Diego, Calif., in 1855.

Source of Black Pearls
Black pearls come from the Mexican Pacific coast.

Character is the sum of the affections.

FARM TOPICS

GOOD MANAGEMENT TO INCREASE EGGS

Early Preparation Must Be Made for Pullets.

By Roy S. Dearstyne, Head Poultry Department, North Carolina State College, WNU Service.

The poultryman who has a well managed flock is the poultryman who will receive the biggest returns from the fall increase in egg production.

Pullets should be ready for the laying house in early fall. The house should be thoroughly cleaned and disinfected before the birds are placed inside. Broken window panes should be replaced, and if drop curtains are used on open-front houses, these should be checked for needed repairs.

Cull all pullets carefully. Market all sub-normal birds, especially those with excessive bleaching of shank and face parts. These birds are usually carriers of coccidiosis.

Do not change pullets from growing mash to laying mash until they have reached 25 per cent production. Then change the mash gradually over a period of two weeks.

Don't buy cheap mash—it is the most expensive in terms of results produced for money spent. Keep a good grade of mash before layers at all times. See that they have plenty of fresh water.

Practice rigid sanitation to keep the death rate down. Keep accurate records on the flock. Without records the poultry business is a hit-or-miss affair—mostly miss.

Good breeding males are essential but scarce. If these have not been secured, get them at once.

Early fall is a good time to plant grazing crops. A mixture of Italian rye grass and crimson clover will provide excellent winter and spring grazing.

Soy Meal Chick Feed Is Recommended in Rations

Since soybean oil meal has become such an important factor in poultry rations, due to its economy as protein carrier, it is worth noting the results of experiments at the University of Wisconsin, says the Country Home Magazine. An all-mash ration containing 12 parts soybean meal, two parts meat scrap, and two parts dried milk plus minerals (in 100 parts) was better than one containing 16 parts soybean meal plus minerals, as measured in weight of chicks at 8 and 20 weeks, and in feed consumed for gains made.

Another ration consisting of 12 parts soy meal, two parts meat scrap and two parts dried milk plus minerals (in 100 parts) was not so effective as one containing eight parts meat scraps and eight parts dried milk, when measured at eight weeks, but was about as good at 20 weeks. The 12-2-2 ration (above) was about equal to one with eight parts soy meal, four parts meat scraps and four parts dried milk plus minerals and one with eight parts meat scraps and eight parts milk at 20 weeks of age. With laying pullets at 11 months various combinations of soy meal with meat scraps and dried milk plus minerals gave good egg production and were better than when the sole source of protein was soybean meal.

Consult Your Vet

Although the vaccination of cattle against Bang's disease (contagious abortion) looks promising, it is still experimental and should not be done except by a skilled veterinarian, warns Dr. J. R. Mohler, chief of the bureau of animal industry in Washington. The vaccine being used contains living Bang's disease germs, and should not be used on mature or pregnant cattle as it may infect them. As applied to calves to prevent, not to cure, the disease it seems to give encouraging results, but the results of tests in 250 herds in a number of states are needed before the vaccine can be officially endorsed.

Turnips for Horses

Turnips may be fed to horses either boiled or raw, though this feed is not a common one for this class of stock, advises a writer in the Montreal Herald. Roots should not be depended on for the energy needed by working horses. Roots are about 90 per cent water, so that it would take 100 pounds of them to equal 10 pounds of hay in dry feed. It is doubtful whether turnips would have any effect on heaves.

Confining Poultry

Trim the tips of chicken's wings, perhaps one wing more than the other, to keep them from flying over the fence, is the advice of the Indiana Farmer's Guide. Uneven trimming will unbalance the bird when an attempt to fly is made. Very little of the wing needs to be taken off to stop this practice and little attractiveness of the bird will be lost. This suggestion is the most economical and practical for the poultryman.

Sufferers of STOMACH ULCERS HYPERACIDITY

DEFINITE RELIEF OR MONEY BACK

TREVOR

Mr. and Mrs. John Kirk, Kenosha, and their house guests, friends from Montana, called on their uncle and aunt, Mr. and Mrs. William Evans, on Wednesday.

Mrs. Luanah Patrick attended the District P. T. A. meeting at Wilmet on Wednesday.

The Willing Workers enjoyed a dinner in Kenosha Friday noon and a show in the afternoon.

Miss Doris Kenzler of Burlington spent the week-end with Mrs. Elmer Fleming.

Miss Flora Orvis, Pleasant Prairie, called on Miss Sarah Patrick Sunday.

Mr. and Mrs. Elmer Fleming and children spent Sunday afternoon and evening at the parental homes in Burlington.

Fritz Oetting accompanied Ray Loth, Silver Lake, on a week's duck hunting trip to Spooner, Wis.

Mr. and Mrs. Albert Weinholz and son, Vernon, were Kenosha visitors Wednesday evening.

Elbert Kennedy spent Thursday calling on Trevor friends.

William Oetting, Chicago, was a Trevor caller Wednesday.

Mr. Berry with a force of men from Silver Lake are putting a new roof on the A. J. Baethke property.

Mrs. Charley Oetting called on Mrs. August Lubkeman, near Bristol, Thursday evening.

Visitors over the week-end at the Charles Oetting home were their son, Carl Oetting, and Kenneth Stockton, Mankato, Minn.; their daughters, Adele Oetting, Oak Park, Ill.; Elvira Oetting and friend, Arthur May, Madison, Wis.; and their nephew, Fritz Oetting, Berwyn, Ill.

Sunday afternoon callers at the A. J. Baethke home were Mr. and Mrs. Walter Baethke, Antioch, their son, Elmer Baethke and family, Barrington, Ill., and Mr. and Mrs. George Carpenter, Cicero, Ill.

Elvira Oetting, who is spending the first of the week with the home folks in company with her mother, were Kenosha shoppers Monday afternoon. Joseph Smith accompanied Clarence Sheen to Silver Lake Wednesday afternoon.

Mrs. Ottilda Schumacher and daughter, Lillian, were Waukegan shoppers Tuesday.

Mrs. Dora Anderson, Lincoln, Nebraska, who is visiting her sister, Mrs. H. F. Schultz, Pleasant Prairie, called on her niece, Mrs. Theron Hollister and family.

Mrs. John Mattis spent part of the past week with relatives in Chicago.

Mr. and Mrs. A. J. Baethke visited in Forest Park Thursday.

Mrs. Alfred Dahl, Mrs. Anderson

and daughter, Marie, and Charles Oetting were Antioch visitors Tuesday afternoon.

Mr. and Mrs. M. Johnson are visiting the latter's parents, Mr. and Mrs. Baethke. Wednesday Mrs. Baethke and daughter were Kenosha shoppers.

Mr. and Mrs. Theron Hollister accompanied Mr. and Mrs. Nelson and children of Cross Lake to Kenosha Thursday.

Mr. and Mrs. Alfred Dahl and son, Johnnie, attended the silver wedding celebration of Mr. and Mrs. Pete Peterson at Waukegan Tuesday evening.

Mr. and Mrs. Byron Patrick and sons, Robert and Ray, Salem, spent Sunday evening with their mother, Mrs. Luanah Patrick.

Mrs. Pearl Hartnell and daughter, Dorothy, Milwaukee, spent Sunday with her parents, Mr. and Mrs. Daniel Longman.

Pelping Once Cambulac
Ages ago Pelping was known as Cambulac. Later it became the "Purple Imperial City," or Peking, which means "northern capital."

The latter name hung on longest. But in 1928, Gen. Chiang Kai-shek's Nationalist hordes swept up from the south, not only captured Peking, but took the seat of the government back to Nanking, says the Washington Post. So, as Peking was no longer the "northern capital," the city's name was changed, this time to Pelping. The meaning of that is ironic. For Pelping means "city of northern peace!"

Oil on Troubled Waters
"When you pour oil on de troubled waters," said Uncle Eben, "all dat's liable to happen is foh somebody to throw a lighted match in de oil."

ANTIOCH CLUB WOMEN TO ATTEND FEDERATION MEET

The Lake County Federation of Woman's Clubs will meet Monday, October 18, at the Masonic Temple in Waukegan. Many members of the local club are planning to attend.

The board meeting will convene at 10:30 a. m. with the regular meeting to follow at 11, and the subject, "Creative Writing," will be discussed.

Following the noon luncheon the afternoon session will begin at one o'clock with Dr. Beulah Cushman giving the principal address on "The Prevention of Blindness."

Members of the Antioch Club who plan to attend are requested to make reservation with Mrs. George Anzinger not later than October 16.

ALTAR AND ROSARY MEETING IS WELL ATTENDED

Twenty-two members were in attendance at the Wednesday afternoon meeting of the Altar and Rosary society. After an important business session, cards were played with prizes going to Mrs. D. Kennedy, Mrs. Heidenrich, Miss O'Malley, and Mrs. D. G. Peters. Refreshments were served by the hostesses, Mesdames Kennedy, Edmund Vos and Thomas Hunt.

The next meeting will be held the first Monday in November.

MOTHERS CLUB MEETS AT BRIGHT HOME

The Antioch Mothers Club met Tuesday evening at the home of Mrs. L. O. Bright. Mrs. Harry Messing was assistant hostess and Mrs. Roy Kufalk was in charge of the evening's program. Twelve members were present.

Mrs. Reuben Childers, program chairman, outlined the program for the ensuing year.

MRS. GRAHAM IS HOSTESS AT SHOWER TUESDAY

Mrs. Richey V. Graham was hostess to 40 guests at her Channel lake home Tuesday afternoon at a miscellaneous shower for Miss Helen Silhanek, daughter of Mr. and Mrs. Edward Silhanek, who is to be married to Tom McNamara of Chicago on Nov. 6.

TIFFANY SISTERS ENTERTAIN

Misses Deedie and Mary Tiffany entertained a number of friends at a dinner-bridge party Sunday evening. Contract was played with prizes going to Mrs. W. C. Petty, Mrs. N. E. Sibbey, Ray Bicknell and Dr. D. N. Deerling.

METHODIST WOMEN TO HAVE SILVER TEA WEDNESDAY

The Aid Society of the Methodist church have announced a silver tea to be held at the church next Wednesday afternoon at 2:30 o'clock. There will also be an entertainment and a package sale. Everybody is invited.

FIDELITY TO MEET AT LUBKEMAN HOME

The Fidelity Life association will hold the next regular meeting on next Monday night at the home of Mr. and Mrs. Arthur Lubkeman on North avenue.

CHANNEL LAKE PTA SPONSOR HALLOWEEN PARTY

The Parent-Teacher Association of the Channel Lake school will have a Halloween party for the children on the Friday preceding Halloween (Oct. 29) at the school.

LEGION AUXILIARY TO MEET AT PITMAN HOME

The regular social meeting of the American Legion Auxiliary will be held on Friday, October 22, at the home of Mrs. E. C. Pitman at 8:00 P. M.

Mayor and Mrs. George Bartlett and daughter, Lillian and son, George, Jr., were in DeKalb Saturday visiting their son, Clayton, who is a sophomore in the state teachers' college. They saw the homecoming football game in which DeKalb lost to Normal, 14 to 2.

Mr. and Mrs. Frank Powles returned Wednesday from a ten-day motor trip through the East, where they visited New York, Boston, Washington and Baltimore. Eleven years ago, the couple then just married, traveled the same route on their honeymoon trip.

Mrs. Lucy Himens was surprised on her birthday Friday evening when 12 women came to her home and presented her with many gifts, among them an electric toaster from her children. Five hundred was played during the evening.

Mrs. Clara Westlake and Fannie have returned from Syracuse, N. Y., where they visited Mr. and Mrs. Monte Hinton. Mrs. Hinton before her marriage was Miss Martha Westlake.

Mr. and Mrs. Bert Dickey returned Sunday after a week's visit at Arcanum, Ohio, in the home of Mr. Dickey's cousin, Elmer Dickey and wife, who returned to Antioch with their guests for a week's visit in Antioch. This is their first trip to Northern Illinois.

Electricity Was in Use

Before Kite String Find

Electricity was discovered—and harnessed, to a limited degree—long before Poor Richard conducted his foolhardy, but luckily successful, experiment with the kite string, asserts a writer in the Philadelphia Record.

From the days of Thales, 600 years before Christ, to Franklin's time, would-be scientists were busily rubbing amber, sulphur balls and pieces of glass to obtain mysterious electrical sparks.

But it wasn't until about 200 years ago that anyone did anything with the sparks except to admire them, and wonder at them.

Then came Stephen Gray, a poor pensioner in a famous London charity school, to send a current of "frictional" electricity over a 200-foot circuit of packthread suspended by silken loops.

He used the pupils at the school in his experiments, too—sometimes to their dismay. One of his favorite stunts was to suspend a boy in the air with a hair harness which fitted under his armpits, and then connect him to the electrical circuit.

The boy's body was electrified with the tiny charge and then he was made to blow soap bubbles. The other youths were astonished to see sparks fly from the nose of the suspended boy to the soap bubbles.

The Poodle Dog

The standard poodle is frequently known by the erroneous name, "French poodle," a non-existent variety. The so-called French poodle is a German breed. The word "poodle" is derived from the German "pudel," applied to the breed because it retrieves from the water.

Strictly speaking, it is the "canis familiaris aquatilis." In France, the breed we know as the poodle is called the "caniche," which derives from "chien canne," which translates into "duck dog." To go a bit further in debunking the "French" part of the poodle: it was in France that the hair was first clipped from the dog so that it could swim better, but it was the English who developed fancy clipping.

Many Fell for the Camorra

The Camorra, a criminal secret society which was organized in an Italian prison in 1820 and existed until 1911, once camouflaged its thieving, smuggling and blackmailing so completely by its good deeds in social and political circles that many princes, statesmen and even dignitaries of the church became members, according to Collier's Weekly.

Australian Love Birds

Budgerigars are Australian parakeets famed for brilliantly colored feathers and keen intelligence. Almost unknown in America, they are popular as pets in England and their native land. They are called Australian love birds because of their affection for their mates.

Personals

The new line of Nellie Don dresses has just been received, showing many bright wools at \$7.95 to \$10.95. MarieAnne's, Antioch.

Mr. and Mrs. D. D. Campbell and daughter, Anna, were guests last week in the home of the former's daughter, Mrs. John Puerkel and husband, in Oak Park.

Mrs. Alice Regan visited friends in Niles Center last week and also visited her son, William, who is employed in the Chicago office of the collector of internal revenue.

W. S. Darnaby is spending a week's vacation with relatives and friends in Columbia, Mo. Mrs. Simon Stowe is in charge of the shoe store here during his absence.

Mrs. Andrew Lynch returned home Tuesday morning from Chicago, where she had been spending a few days with relatives.

Mr. and Mrs. Thomas Runyard spent last week in Cleveland visiting Mr. Runyard's sister, Mrs. Edward Brady.

Miss Evelyn Zuber was a house guest of Mrs. L. H. Arms at Channel Lake over the week-end.

Mr. and Mrs. Irving Elms left Monday for Danville where they attended the state firemen's convention before leaving for the Ozark region in Missouri and Oklahoma where they are spending their vacation. Richard Allner, also a member of the local fire department, was a delegate to the state meet at Danville.

Mr. and Mrs. Andrew Dalgaard returned Sunday after spending a week with friends at Chetek and Drummond, Wis.

Mr. and Mrs. Robert Schraun had as their guests Sunday, Mrs. Pearl Beyer, Jr., of Colby, Wis., and Mr. and Mrs. John Scheffick of Dorchester, Wis.

Mr. and Mrs. Myrus Nelson and Lena Pederson were guests of Mr. and Mrs. Gregory Yahnke at Clinton, Ill., Tuesday and Wednesday of this week.

Dr. and Mrs. L. J. Murphy and son of Chicago spent the week-end here with Mr. and Mrs. W. C. Petty and family.

Mrs. Chase Webb and son, E. Morley, are spending a few days in Chicago this week.

Mr. and Mrs. Fred McKensie of Burlington, Wis., are expected as guests in the home of Dr. and Mrs. A. P. Bratrude Sunday.

Glenn Childers celebrated his ninth birthday with a party at the home of his parents, Mr. and Mrs. R. H. Childers, on Tuesday.

Mr. and Mrs. William Phillips were in Milwaukee Tuesday attending the convention of hardware dealers.

S. E. Pollock attended Worthy Matrons' and Worthy Patrons' night, O. E. S. at Richmond Monday evening, and filled the post of Chaplain.

"Here Lies the Jinx"

A wooden cross with the words, "Here lies the Jinx," marks the center of a small burial plot at the Buckhorn mine, 60 miles northwest of Eureka, Ariz. Miners at the camp buried their "jinx," a piece of broken mining machinery that caused them considerable trouble, in a fenced-in grave in a conspicuous place.

Fifteen to a Bed

Fifteen guests could climb up to sleep in a community guest bed in one of the old Norwegian houses preserved in the famous open-air museum at Lillehammer, says Sydney A. Clark. If there were one or two more than fifteen, he writes, the host and hostess would take the extras into their own bed.

Antioch Lions Hear G-Man Talk at Dinner

Members of the Antioch Lions Club assembled at dinner at the Golden Hotel Monday night heard an interesting address by Henry Krueger, former federal agent who worked with the department of justice under Edgar Hoover.

Krueger told of the successful efforts of the department in running down criminals after the special agents had been invested with power to make arrests in the same manner as police officers. Under the law, Krueger said, there is no such name as G-men—the phrase originating in newspapers and in the movies. Men referred to as G-men are federal agents, or investigators in the employ of the department of justice.

According to the speaker, there is a major crime committed every 20 seconds in the United States, and one person is murdered every 45 minutes.

Rotnour Company Opens Season at Crystal Thursday

The popular J. B. Rotnour Players will open the season of spoken drama at the Crystal Theatre next Thursday night, Oct. 21, when the players present "Human Hearts" as the curtain raiser.

The play is a story of home life with intense dramatic situations and abundance of comedy. Vod'vil between acts and during the action of the play will be introduced by David Reese, Art and Ducky Vernon, Miss Gloria LaVerne and the quartet.

The company plays here in co-operation with local merchants whose names appear in the Crystal announcement on another page.

Bags 1,000 lb. Moose in Ontario, Canada

C. J. Roeschlein, former resident of Antioch, now of 636 Fullerton ave., Chicago, returned Sunday from a two weeks hunting trip in Canada, where he shot a moose weighing 1,000 pounds.

Just as the tiger muskie is the goal of all inland fishermen, so is the moose, largest game animal on the North American continent, the goal of hunters. Mr. Roeschlein has a perfect right to feel proud of his trophy.

State Receives Federal Funds for Old Age Assistance

Monthly old age assistance payments in Illinois are assured for the remainder of the current year. The Federal Social Security Board has forwarded to the State a warrant for \$3,118,500 covering the Federal government's share of the October, November and December payments. The State will allot an equal amount of its own funds for this purpose.

GRASS LAKE P. T. A. MEETS FRIDAY NIGHT

An interesting program has been arranged for the Grass Lake Parent-Teacher association meeting to be held tomorrow (Friday) night at the school.

Lambs Only One Year

Lambs never live longer than a year—then they become sheep! One reason why lambs sell for good prices is that there is little waste meat on them. "Hothouse lamb" is lamb born late in the fall and marketed in the winter. All lambs marketed between spring and fall are called "spring lambs."

No Tone in Early Piano

Speaking of strange pianos, an American popped up with a really curious one back in 1872. It was a practice instrument to enable players to perfect finger movements without bothering about tone.

Card of Thanks
We wish to thank our many friends and neighbors for the flowers, expressions of sympathy, use of their cars and other acts of kindness at the funeral rites of our departed brother, Willard G. Orvis.
We especially wish to thank the organist and the singer for their services.
Mr. and Mrs. Everett R. Orvis.

Card of Thanks
We wish to thank all our friends for their many kind expressions of sympathy in the death of our Father and Grandfather.
Mr. and Mrs. Edward Ditsworth,
Mr. and Mrs. Harry Felter,
Mr. and Mrs. Glenn Black,
Harold Felter, Donald Ditsworth.

LAKE VILLA

Word was received here early this week telling of the death of John Darby, who, with his parents, owned what is now a part of the E. J. Lehmann estate north of town and lived there a number of years ago. For some years he has lived in Colorado and has been an invalid for some time so that news of his death was not a great surprise.

Mr. and Mrs. Jack Linden and son of Berwyn were guests of Mr. and Mrs. Albert Kapple on Sunday. Mrs. Linden was a former teacher here, and will be remembered as Miss Ethel Landers.

Mr. and Mrs. James Kerr attended church at Millburn last Sunday as there were no services here because of Conference at Rockford.

Mr. and Mrs. John Gleason spent Monday at Lake Geneva, Wis.

Mrs. George Gooding of Grayslake visited her sister, Mrs. Joe Escherich and her aunt, Mrs. Thayer, one day last week.

Mr. and Mrs. Lawrence Thayer were guests of Mrs. Thayer's aunt, Mrs. Blanchard in Waukegan last Sunday.

Mr. and Mrs. Bolt, Mrs. Johnson and Mrs. Charles Panter of Chicago visited Mrs. Panter's sister, Mrs. Louise Thayer on Sunday.

Mr. and Mrs. Charles Peterson left here Wednesday of last week for a vacation to be spent in North Dakota. Junior Miller spent the week-end in Waukegan.

Allan Mitchell, who has been with his grandparents, Mr. and Mrs. J. O. Hucker for several weeks, has returned to his home in Chicago and entered school there.

We are glad to have Rev. Allen returned as pastor of the local church for the coming year.

Mrs. L. C. Hamlin and sons spent Saturday in Waukegan.

Mr. and Mrs. Salzgeber and sons have moved to Allendale Farm where Mr. Salzgeber is employed as teacher, and will occupy the Nixon cottage.

Mr. and Mrs. Sommermeyer have purchased land in the Atwell subdivision near the Brickman store and have broken ground for a new home. John Meyer is doing the work.

Dr. and Mrs. Gindich and daughters spent Sunday and Monday with relatives at South Bend, Indiana.

Mrs. Lloyd Barnstable was honored at a miscellaneous shower at the home of her sister, Mrs. Clarence Hansen last Saturday afternoon and was the recipient of many beautiful and useful gifts to use when she and her husband are ready to start housekeeping. The guests played 500 and bunc.

Mrs. Emma Hall, her nephew from Wauconda, Miss Aileen Kapple and Miss Julie Hall of Chicago, drove to Champaign last Saturday to visit Miss Gerry, who is a student at the University there, and to see the foot ball game. They returned Sunday.

Mrs. L. J. White and Mrs. R. D. Hall of Waukegan, president and past president of the Lake County Methodist Woman's Association were guests of the Aid Society at the meeting at Mrs. Blumenschein's last Wednesday afternoon.

LAKE VILLA SCHOOL NEWS

Monday evening, October 18, is the regular meeting night for the Lake Villa P. T. A. Our program will consist of several musical numbers and some readings by Mrs. Melvin Amstutz of Waukegan. Mrs. Amstutz has given many programs throughout both Lake and Cook counties and is rated very highly as a program reader. These readings will prove very entertaining to all who attend.

We received our first news today from the Alvin Lyons Education-Expedition which is traveling through Central and South America. This was in the form of an acknowledgement from the expedition and also a beautiful portfolio cover in which to keep all our letters and maps which we will receive from them.

Last Monday, Oct. 11, the Lake Villa ball team had a game with Round Lake at Lake Villa. They won from us by a score of 8 to 6. Johnnie Meyer hit a home run.

Bill Effinger was twelve years old last week and besides being made a Tenderfoot Scout he was also surprised at the home of Mrs. William Hook by a birthday party.

Lawrence Keisler, Leo Buchta, Robert Hodgkins and Don Sherwood were made Second Class Scouts recently. The 6th, 7th and 8th grade room has

just organized a club and the officers for the first month are: Robert Hodgkins, president; Gladys Keisler, vice president; Bill Effinger, secretary, and Phyllis Helm, treasurer.

Last week was fire prevention week and we had Mr. Weber talk to us on Friday concerning fire prevention and what we could do to help prevent fires. His talk was very worthwhile as well as interesting. We also had two fire drills last week.

Our flag pole rope was broken last week and as a result we haven't been able to have our flag flying.

Mr. Brickman has just repaired and put back up one of basketball backboards and has also painted both of them; also the sandbox.

Mr. Dixon is going to Springfield on Thursday of this week on business and we are having Mrs. Everett McClure, who was Miss Louise Sheehan before her marriage, as our tetcher for hat day.

The second and third grades are enjoying some seat work which is about Columbus. It has a story and then pictures to color.

Kathleen Gindich is spending a few days in South Bend, Indiana, with her father, Dr. Gindich.

The Intermediate room has a pretty collection of leaves which they are planning to shellac some time this week.

MILLBURN

The annual church bazaar and roast chicken supper will be held Friday evening, Nov. 5th, with the bazaar in the Mason's hall and the supper in the church basement.

Mrs. James H. Bonner celebrated her 80th birthday anniversary on Sunday. In addition to gifts, cards and flowers, she was especially honored by the Ladies' Aid Society by a beautiful bouquet in appreciation of her years of usefulness in the society. Mrs. Bonner wishes to express her gratitude for all these remembrances.

Mr. and Mrs. George Achen of Kenosha and Mr. and Mrs. L. L. Pessine and family of Dixon, Ill., were guests at the E. A. Martin home Sunday.

Miss May Dodge spent Friday with her cousin, Mrs. Jessie Low, at the Carl Anderson home.

Mr. and Mrs. Roy Edwards and Betty of Waukegan and Mr. and Mrs. Warren Edwards and family of Hickory were callers at the home of Mrs. George Edwards Sunday.

Guests for dinner at the Robert Bonner home on Sunday were Mrs. George Beaumont, Mr. and Mrs. Floyd Beaumont and daughters, Mary and Jane of Kansasville, Wis., and Mr. and Mrs. Boyd Adams of Racine, Wis.

Mr. and Mrs. Fred Hartman of Los Angeles, California, are visiting the latter's parents, Mr. and Mrs. Frank Edwards.

There was the usual good attendance at the Ladies' Aid dinner at the church last Thursday. The committee for the dinner was Mrs. Leslie Bonner, Mrs. I. S. Denman, Mrs. Ernest Wells, Mrs. Victor Strang, Mrs. Frank Hauser and Mrs. Arthur Leng.

Mr. and Mrs. James Kerr and granddaughters, the Misses Mitchell and Collins of Lake Villa attended church services at Millburn Sunday.

Many from Millburn attended the funeral services for Mrs. George Larsen, mother of Mrs. Louis Bauman held at the home on Grand avenue in Waukegan Thursday.

"As a man thinketh in his heart, so is he." Right or wrong thinking makes the right or wrong man.

AUCTION AND SALE BILLS

Let us help you prepare your sale bill copy. Since we handle so much of this work we are well equipped to give you exactly what you want, when you want it. Bills printed as we print them get attention and increase results.

FARM TOPICS

FARM STRUCTURES NEED GOOD PAINT

Late Summer and Fall Best Time to Do Work.

By E. R. Cross, Professor of Agricultural Engineering, Rutgers University, WNU Service.

Painting farm buildings every four or five years not only makes for an attractive farm scene, but also preserves the materials and increases the life of the structures.

Late summer and fall usually offer the best time for painting, because it is at this time that weather and drying conditions are best and the average farmer has more time to give attention to the job.

Good outside paints penetrate the wood enough to have a preservative effect as well as to provide protection by covering the surface.

The life of paint is influenced by the conditions under which it is applied. The surface must be clean and dry and the wood beneath must also be dry, otherwise the paint is likely to peel. Paint flows best and spreads on smoothest when the weather is warm, but extreme heat of summer is not beneficial. It dries too quickly, bakes the paint and may result in excessive chalking or checking. Temperatures between 60 and 75 degrees Fahrenheit are ideal. Paint should not be applied at temperatures below 55 degrees.

It pays to use good paint. Choose ready mixed paint of a known brand or mix it at home. In the latter case be sure of the formula, use the best of materials and stir to uniform consistency. Before painting, do necessary repairing — putty all cracks and nail holes, scrape all loose paint and brush the surface clean.

A good building kept well painted and repaired should last 100 years or more. During this time a building may be remodeled for three or four different uses, so it pays to preserve buildings by keeping them repaired and painted.

City's Fruit, Vegetable Supply Comes Many Miles

Nearly one-third of the more than 70,000 carloads of fresh fruits and vegetables sold last year on the Chicago market—a typical American big city, with year-around demand for fresh products—traveled more than 2,000 miles and arrived in near-perfect condition, the United States Department of Agriculture reports after a survey of transit and storage diseases. Much of this success is due to shipping and storage tests by the department.

Ten per cent of the fruits and vegetables traveled more than 2,500 miles to the Chicago market. Another 10 per cent was shipped 1,500 miles; 25 per cent, 1,000 miles; and 22 per cent, including that trucked in from Illinois and nearby states, less than 500 miles.

Even though Chicago is centrally located, the vegetables in a simple combination salad may have traveled more than 5,000 miles. Tomatoes from Florida, lettuce from California, and onions from the Rio Grande valley, all arrive in good condition as a result of better knowledge of packing and refrigeration.

Most fresh fruits and vegetables are now available throughout the year in most large cities and in many smaller ones. Even strawberries and watermelons, once available for only a short period each year, may be purchased in quantities for six to eight months each year.

Many 4-H Clubs

There are 4-H clubs in every state and United States territory. Any girl or boy between ten and twenty and living on a farm can join. Only requirement is to carry a project in some branch of farm work. Many Department of Agriculture extension agents and state agriculture experts are former 4-H members. The "4-H" stands for the pledge of head, heart, health and hands in the club creed.

FIELD AND FARM

Hatching eggs held longer than ten days decrease in hatchability.

It is estimated that an acre of meadowland will contain on the average about 15,000,000 insects.

Danish co-operative creameries receive whole milk direct from the farms and the average co-operative handles from 2,000 to 3,000 gallons of milk a day.

Sugar cane requires 9 to 13 months to mature.

"Large" eggs, so labeled, must weigh 24 ounces a dozen, according to law.

Baby chicks can be fed a limited amount of sour milk along with water and a regular starting feed.

When pastures become so scant that heifers can not get enough feed to keep them growing, additional feed is advisable.

MYSTERY OF LOST COLONY RECALLED

Ancient Puzzle Touched by Fetes in North Carolina.

Manteo, N. C.—As a fitting tribute to the first English settlement in this country (on Roanoke island, North Carolina, in the year 1587, under the sponsorship of Sir Walter Raleigh), a series of celebrations was held on the island this summer. The idea is to commemorate the three hundred and fiftieth anniversary of the founding of the colony. On August 17 was observed the three hundred and fiftieth anniversary of the birthday of Virginia Dare, the first child born of English parents in America.

Thirty-three years before the Pilgrims landed on Plymouth rock, and 20 years before Jamestown was settled, the 100 men, 12 women, and 9 children who formed the first English colony in America settled on Roanoke island. This was in July, 1587.

Colony Disappears.

On August 27, 1587, Gov. John White, who headed the expedition, bade farewell to his companions and to his nine-day-old granddaughter, Virginia Dare, and sailed to England for supplies. Upon his return four years later, the colony had completely disappeared, the only traces left being a few broken pieces of armor and the word "Croatoan" carved on a tree. What happened to Sir Walter Raleigh's "lost colony" is a mystery which for centuries has baffled historians. Many explanations and legends have risen.

Did the colonists intermarry with the Indians and are their descendants living in North Carolina today? Was the colony exterminated by the Spaniards? Were the settlers massacred by the Indians? No one knows for sure.

Governor White himself told the story of his return to the island in 1591. Upon this story are based all accounts of what happened.

"We returned," he said, "round about the north point of the island until we came to the place where I left our colony."

"In all this way, we saw in the sand the print of the savage's feet of two or three sorts trodden in the night, and as we entered upon the sandy banks, upon a tree, the very brow thereof, were curiously carved these fair Roman letters, C. R. O. which letters presently we knew to signify the place where I should find the planters (colonists) seated, according to a secret token agreed upon between them and me at my departure from them; which was that in any way they should not fail to write or carve on a tree or posts of the doors the name of the place where they should be seated, for at my coming they were prepared to remove from Roanoke 50 miles into the main (mainland).

Found No Signs.

"Therefore at my departure from them Anno 1587, I willed them that, if they should happen to be distressed in any of those places, they should carve over the letters or name across in this form. But we found no sign of distress."

"And having well considered of this, we passed toward the place where they were left in sundry houses, but we found the houses taken down and the place very strongly enclosed, with a high palisade of great trees, with curtains and flanking and very fortlike, and one of the chief trees or posts at the right side of the entrance had the bark taken off and five feet from the ground in fair capital letters was graven 'Croatoan,' without any cross or sign of distress."

A growth of weeds indicated that two seasons had passed since the departure of the colonists.

Sir Walter Raleigh dispatched five rescue expeditions, but none was successful.

Drive Launched to Spur

Use of Fruit in Austria

Vienna.—An average yearly consumption of 200 pounds of fruit by every person is declared as a desirable goal by Austrian physicians.

Now about 80 pounds are being eaten by the average Austrian in a year.

Even this amount cannot be furnished by Austria's fruit growers, as \$3,000,000 worth of fruit is imported from abroad, mostly from Italy.

Austria possesses about 20,000,000 fruit trees, or three to every inhabitant.

To increase this number in proportion to the rising demand is the object of the recently organized Austrian Fruit Growers' association, which advocates the importation of healthy and suitable trees from abroad, particularly from California and Florida.

Pastor Offers Prizes

for Sermon Nappers

Sydney.—A present to any member of his congregation who can fall asleep during one of his services has been promised by the Rev. A. Norris, Methodist minister in a Sydney suburb.

"Preaching has become too stereotyped and stolid," he explained. "My sermons deal with life. I believe in humor."

But It's True

February 30 may occur in leap years under these conditions: Eastbound ships crossing the 180 degree line in the Pacific on February 29 of a leap year enter the official date for the next day as February 30. If they reached the line on any other day in the year they would enter the next day as the duplicate of the date just passed. Hence there would be two January 24s, two July 15s, etc. The "February 30" entry has just become a habit. Consider the possibilities of being born on a ship as it crossed the 180-degree line under the conditions described.

Ohio Once Had Many Snakes

Snakes once were so numerous in many sections of early Ohio that the settlers would organize snake hunts. Armed with clubs, axes and guns, the farmers would comb a section of the forest from morning to night, leaving hundreds of poisonous serpents dead in their wake.

Cattle Iamed 10,000 Years Ago Domestication of cattle is said to have begun 10,000 years ago. Cows were worshipped in Babylonia in 2000 B. C.

Pair—Two

Do not use "a pair of" when all you mean is two. A pair refers to two things used together, equal, or suited to each other. It is not a synonym of the word two. We talk of a pair of tongs, a pair of deuces, a pair of lovers. A cow and a postage-stamp are two objects, but they are not a pair of anything. A pair of twins would indicate four children.—Tit-Bits Magazine.

Not Excesses in Apple Skin The apple skin, which is usually so blithely pared away, contains many health food elements.

Commonwealth and State

The two words, commonwealth and state, have about the same meaning, but "commonwealth" originally connoted more of self-government than "state." Strictly speaking, our Union consists of 44 states and 4 commonwealths. The four commonwealths are Massachusetts, Pennsylvania, Virginia and Kentucky.

Mourning for Favorite Cat

Ancient Egyptians shaved off their eyebrows in mourning when their favorite cat died.

The Brain Vast Switchboard

The main divisions of the brain are the cerebrum, considered the thinking part; the cerebellum, lying at the back base of the brain, and the medulla oblongata. Anatomists break down subdivisions of the brain into units of extreme complexity. The layman usually is interested in the principal kinds of substance out of which the brain is made: gray matter and white in both cerebrum and cerebellum. Gray matter is useless in running such important organs as the heart, lungs, diaphragm; the thinking part of the brain can not control digestion, manufacture blood-cells or operate the intestines. Dr. Charles Macfie Campbell of the American Psychiatric association, in Literary Digest, declares that various parts of the body really are separate brains and participate in the act of thinking, the brain being a vast switchboard.

Orioles Called "Hangnests"

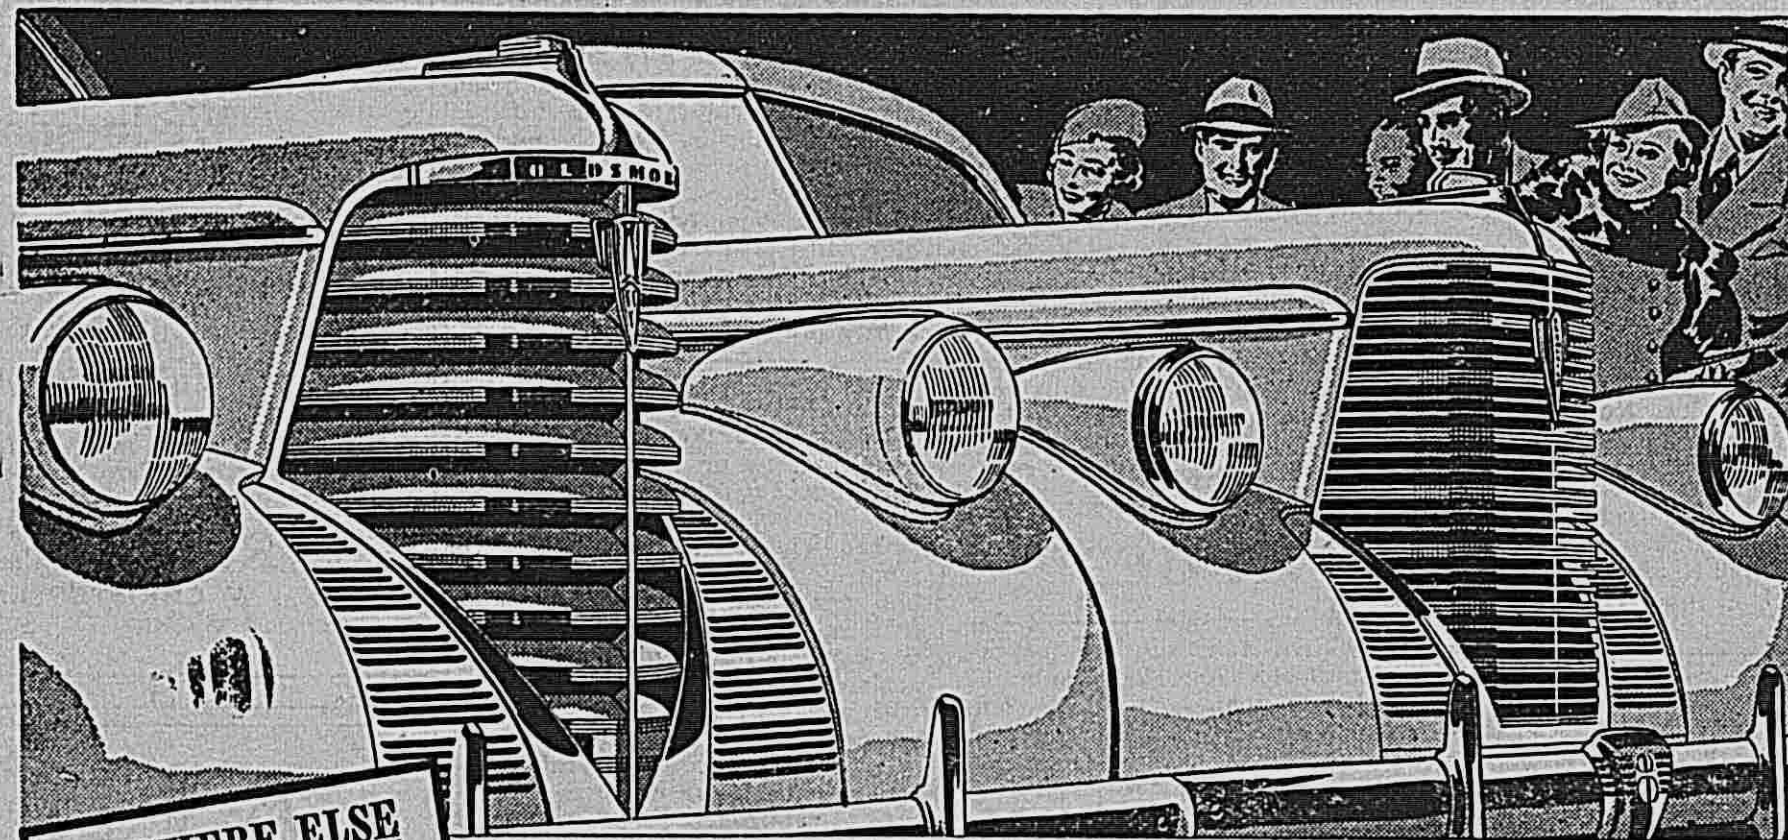

Orioles are called "hangnests" because they place their nests on limbs in such a manner that they hang down. As the nests sway in the wind, we may imagine that the baby birds are being rocked to sleep.

MICKIE SAYS—

"FRIENDS, IF YA LIKE BARGAINS, TH' MOST FERTH' MONEY IS THEM 'MIGHTY MIDGETS,' THE WANT ADS—THEY RENT HOUSES 'N' FARMS, GET FOLKS JOBS, FIND THE LOST, AN' TURN 'WHITE ELEPHANTS' INTO CASH—ALL FER A FEW NICKELS"

BUY, BUILD, REPAIR NOW. We finance. No commissions, no red tape. North Shore Modernizers. Phone No. Chgo. 307. (9)

FARM TOPICS

PASTURE GOOD FOR HENS, DUCKS, PIGS

Turkeys Also Improve When Allowed Greens.

By Prof. D. B. Johnstone-Wallace, Agronomy Dept., Cornell University—WVU Service.
 Pastures have so long been associated with dairy stock that the value of pastures for other kinds of live stock, such as hens, ducks, geese, turkeys, fattening cattle, sheep, horses and pigs is often forgotten.

Young birds depend on something similar to milk in early growth, and the value of milk in their diet in later life is well known. Young cattle, sheep, horses, and pigs depend on milk for their early support and growth.

Perhaps the nearest approach to milk in its chemical composition is young leafy pasture herbage from a good pasture. Such material is not the equivalent of hay and water, but rather the equivalent of a concentrated dairy or poultry feed and water.

Turkey growers should find the use of pasture helpful. When the amount of milk fed to turkeys is considered, it becomes evident that turkey growers are missing a fine opportunity if they do not use pasture herbage instead of milk which is so largely produced from it.

Turkey growers in the West and Midwest have been using pasture for some time and thus have been able to compete successfully with New York turkey growers.

Pre-Cooling Table Fowl Particularly Important

The pre-cooling and proper handling of poultry killed on the farm or at a packing plant is particularly important because the bloom will be quickly lost if the birds are not pre-cooled without delay and also handled properly, asserts a writer in the Montreal Herald. Most of the farm poultry is killed in the fall when cool temperatures prevail. If proper care is then observed in assembling and packing the birds they can be placed on the market in the best of condition. Wherever poultry is handled, the temperature of the pre-cooling room should be checked frequently with a reliable thermometer. A temperature of 32 degrees Fahrenheit is the best for pre-cooling and handling dressed poultry. Fresh poultry can be handled satisfactorily in a temperature a few degrees higher than 32 but never higher than 40 nor less than 32; if less than 32 the birds will freeze. Every effort should be made to pack the birds quickly and if intended for cold storage they should be frozen without delay. If they are intended for immediate consumption or for sale as fresh birds, they should be held at a temperature of 32 degrees.

Some of the chief essentials in handling dressed poultry are: See that all birds are bled and plucked properly and that the feet and the mouth are washed clean. Birds should be hung up by both feet and allowed to pre-cool for twenty-four hours. The temperatures should be checked frequently with a thermometer. In transporting poultry to assembling or selling points it should be held at the temperature at which it was pre-cooled.

Milk by the Box

Modern milkmen drive rubber-tired wagons or trucks; even the horses wear rubber shoes. Enter now the noiseless milk bottle—or rather paper box. The dairy department of the University of Illinois has developed a machine which folds pieces of heavy paper into boxes, coats them with hot paraffin, cools the paraffin, fills the cartons with milk, hermetically seals and staples the top. The process is sanitary, saves space in the refrigerator, and there are no bottles to return or get broken. A case of boxed milk weighs only 27 pounds against a weight of 63 pounds for a case of bottled milk.—Country Home Magazine.

Pointer Good Field-Trial Dog
 Pointers as a breed possess the competitive spirit to a greater degree than is usually found in other bird dogs, a quality that makes them especially suited to public performance. It is rumored that during the Nineteenth century the English Pointer was repeatedly crossed with various Setters as they came into existence and favor. This, it seems, was partly to improve an old characteristic of the Pointer, an independence that made him object to correction and discipline, but which has made him the superlative field-trial dog.

Mamba, Black or Green
 A member of the cobra clan, the mamba may be green or black. The black species is the larger, sometimes growing 12 feet. Unlike most cobras, it climbs trees.

Lemons Source of Electricity
 Experiments have demonstrated that a lemon is a source of electricity. "Spades" of copper and aluminum were inserted in a lemon and attached to instruments, and the fruit yielded a current of about one-half volt, and .0002 ampere. The strength of the current varied in other lemons. A curator of electricity and communications at the Franklin Institute of Philadelphia, estimated, taking into consideration the internal resistance of the lemons and other factors, it would require 800 lemons to light a two and one-half volt flashlight bulb.—Popular Mechanics.

Challis: All-Wool Fabric
 Challis is a light, all-wool fabric of very fine texture. It is generally figured with tiny designs.

World's Largest Glaciers
 A roll call of glacial giants would include the names of Pamir, in the Himalayas, possibly 100 miles long; Hubbard, in Alaska, 90 miles long and in places 10 miles wide, and the ice cap of Svalbard, Spitzbergen. Glaciers flourish virtually on the equator—wherever peaks are high enough. The highest point in Africa—19,710 foot Mount Kilimanjaro, in Tanganyika—is girdled with no fewer than ten such phenomena, even though it is volcanic. South American glaciers are frequently tucked into the pockets of quiet volcanic peaks in the Andes, and at Cerro Alto, in Ecuador, one has taken possession of the second hand crater. The method of growth is more spectacular than the mighty oaks-from-little-acorns contrast. For the huge rivers are merely overgrown colonies of snowflakes, which have become compact, granular ice.

Foot Relief

ATHLEVE

Foot Relief

GREASELESS, STAINLESS

DEODORANT

"Let's talk about our Feet"

How many times have you heard the expression—

"Oh, my feet are killing me!"

Men and women constantly on their feet can avoid "foot trouble" by using "ATHLEVE" for it serves not only as a preventative but gives relief to the following foot disturbances:

ATHLETE'S FOOT

PERSPIRING FEET

RAW AND TITED FEET

BURNING AND ITCHING FEET

The perspiration inside your hot shoe acts as an acid burning your skin.

Always keep ATHLEVE in your medicine chest. Sprinkle it on your feet or in your shoes every day.

Your Feet will soon

Understand you.

Distributed through local druggists. Do not accept substitutes. If your druggist does not stock ATHLEVE, send 50c directly to us and we will send you a can post paid.
